

ATCAA Head Start Family Advocate

When we're looking for compassion, we need someone who is deeply rooted, is able to bend and, most of all, embraces us for our strengths and struggles. Brene Brown

Are you looking for a job where you can make a difference in the lives of children and their families? Do you want to work for an agency that believes in supporting staff to reach their full potential? ***If so, ATCAA Head Start could be the right place for you!***

ATCAA Early Head Start is a federally funded program for low-income families with children aged birth to 3 years and pregnant women. Head Start serves low-income families with children aged 3-5. Both programs provide a comprehensive early childhood education that enhances a child's cognitive, physical and, social-emotional growth and development. Our program fosters family engagement in all areas of a child's development and provides comprehensive resources to families in the areas of health, nutrition and community resources.

Family Advocates work at our Early Head Start and Head Start centers. Duties include: recruiting and enrolling families, assessing family needs and strengths and referring families to community resources. They maintain accurate service records for each family and input the data into a computer database. As a part of the center team, Family Advocates support all areas of family engagement.
